

TABLE 160

DEGREES CONFERRED BY COLLEGE, MAJOR, RACE AND SEX

Degrees (i.e. program completions) conferred during the most recent fiscal year (July 1-June 30) are reported in this table. Degree data is derived from the UNL Student Data Base, as supplied by the Office of Student Records.

Each degree recipient may list up to four areas of emphasis or majors that will be specified on his/her official transcripts. Each of the four possible majors are identified by both a name and a numeric code in UNL's database. The database lists the majors in the same order as they were specified by the degree recipient and therefore the order presented in this table does not infer a primary major if more than one is listed.

The first two columns of this report indicate the name of the degree conferred as well as the names of the first and second majors listed in the database. The names of the possible third and fourth majors are not listed, but their numeric codes may be found in column three. The third column, entitled "Major Codes", provides the numeric codes that correspond to the major names in columns one and two, as well as space for two more codes that indicate third and fourth majors, if applicable.
