

UNDUPLICATED HEADCOUNT ENROLLMENT FOR FISCAL YEAR: TABLE 100
BY COLLEGE, MAJOR, RACE AND SEX

This table presents the cumulative unduplicated enrollments for all sessions in a fiscal year. The sessions included in a fiscal year are the second five-week summer session of a calendar year and the fall, spring, three-week pre-session, eight-week summer session, and the first five-week summer session of the subsequent calendar year. The total unduplicated headcount enrollment is represented by the sum of students enrolled for credit with each student counted only once during the reporting period (in this case, fiscal year), regardless of when the student enrolled.

Session enrollment totals include all students enrolled in courses creditable toward a degree or other formal award administered by UNL (administrative site). This includes students enrolled in UNL-administered courses of instruction which are offered for delivery at a location other than the UNL campus. Students are reported by their major field of study. Students are further classified by sex and racial designations. Racial designations in this table do not denote scientific definitions of anthropological origins. The number of non-resident aliens in each category are enclosed in parentheses following the total number in the category. Beginning in Fall 1994 a "Non-resident Alien" has been redefined as a student who is in this country under conditions of a visa. Excluded from the non-resident alien category are permanent immigrants and refugees who are not U.S. citizens and are not required to leave the United States at a future date. (In 1993 and before, "non-resident aliens" included permanent immigrants and refugees that were not required to leave the United States at a future date.) Students with an unknown racial category are included in the "white" category. Total number of "unknowns" are indicated in the notes section at the bottom of each table page.

Enrollment figures are restricted to the sixth class day enrollment census. This information is retrieved from the "student statistics" file produced by Computing Services Network from data contained in the Student Information System. Enrollment information in this table corresponds to that provided in reports to the Board of Regents and to the National Center for Educational Statistics.

The Office of International Affairs uses different criteria to establish its database. Therefore, its data will not match the data presented in this table.
