1/ The Nebraska College of Technical Agriculture (NCTA) reports student contact hours rather than student credit hours.

This table presents the total number of Student Credit Hours (SCH) for which the students register as of the sixth class day of the semester. The sixth class day is the University's official census date. These are credit hours attempted by students, not earned. Student Credit Hours are assigned to departments based on call numbers. Credit is not assigned according to the home department of the instructional staff who teach the courses.

The measure or value of academic courses is generally thought of in terms of credit hours. A lecture course that is assigned one credit hour will generally meet for one hour each week for the duration of a semester. If 50 students register for a three credit hour course, that class will produce 150 (3 x 50 students) student credit hours.

The level of a course and thus the level of the SCHs attributable to that course is determined by the first digit of the course number: 100-400 undergraduate, 500-700 professional, and 800-900 graduate. Dual level (ie 400/800) courses are assigned based upon the course number for which the student registers. Student Credit Hours generated by field courses and reported as of the sixth class day of the semester are included in counts.
