

UNIVERSITY OF NEBRASKA-LINCOLN

TREND REPORT

2009-2010

FOREWORD

Welcome to the 2009-2010 Trend Report on Student Credit Hours, Degrees Awarded and Enrollment. This report is produced annually by the Office of Institutional Research and Planning with the first Trend Report produced in the 1989-1990 academic year.

All information presented in this report is based on administrative site data. This means the campus with the ultimate academic, administrative and budgeting authority for a program receives credit for enrollment, student credit hours generated and degrees granted.

The information in this report was retrieved from the 'student statistics' file produced by the Computing Services Network from data contained in the Student Information System. This report presents the students registered as of the sixth class day of the semester. The sixth class day is the University's official census date.

Enrollment information presented in this report is unduplicated and the same as that provided in reports to the Board of Regents and to the U. S. Department of Education. The first major self-reported by a student is used in the unduplicated enrollment count. Second and third majors are not counted. Introductory statements precede each table, and footnotes are present to assist the reader.

We welcome your comments, questions and suggestions concerning this document.

William Nunez, Ph.D., Director
Institutional Research and Planning

TABLE 1
UNIVERSITY OF NEBRASKA-LINCOLN

TOTAL STUDENT CREDIT HOURS BY COLLEGE AND LEVEL
FALL SEMESTERS 2004, 2008 AND 2009
(WITH 1- AND 5-YEAR CHANGES)

This table presents the total number of Student Credit Hours (SCH) registered for by students as of the sixth class day of the semester. The sixth class day is the University's official census date.

The measure of academic courses is generally thought of in terms of credit hours; for instance, a degree program may require the student to successfully complete 135 credit hours. A lecture course that is assigned one credit hour will generally meet for one hour each week for the duration of a semester. If 50 students register for a three credit hour course, that class will produce 150 student credit hours (3 credit hours times 50 students).

The level of a course and hence the level of the SCH's attributable to that course is determined by the first digit of the course number:

<u>First Digit</u>	<u>Level of Course</u>
1 or 2	lower level, undergraduate
3 or 4	upper level, undergraduate
5, 6, 7, or 8	graduate I and professional
9	graduate II

In Tables 1 and 2, all graduate and professional SCH's are combined. Dual level (i.e. 400/800) courses are assigned to either the undergraduate, upper level or to the graduate I level depending upon the course number for which the student registers. Graduate II courses are those in the 900 series and are open exclusively to graduate students except by permission of the Dean of Graduate Studies. The general prerequisite for courses in the 900 series is at least 18 hours in the same department (may include approved courses in allied departments).

The information in this table was retrieved from the 'student statistics' file produced by the Computing Services Network from data contained in the Student Information System.

TABLE 3
UNIVERSITY OF NEBRASKA-LINCOLN
DEGREES CONFERRED BY COLLEGE, MAJOR AND LEVEL
FISCAL YEAR 2004-2005 THROUGH 2008-2009

Table 3 shows the degrees conferred (i.e. program completions) for the August, December and May graduations (fiscal year July 1-June 30) for a five-year period. Program completion data are retrieved from the Student Information System, Office of Student Academic Records.

Degrees are organized in the following format:

- Students with a single major are identified on the first line by major and college.
- Students with dual majors are organized by their primary major, secondary major, and college. Those completing more than two majors are not shown here due to space restrictions.
- If students received dual degrees (ex. BS in Business and BA in Arts & Sciences) then two student degrees will be listed under their respective major and college.
- Most graduate majors are shown in their college rather than Graduate Studies.

Note: Educational Specialist degrees (EDS) are included with the Master's degrees.

In 2004-05 there were 27 graduate level degrees in Architecture; twenty six (26) degrees were the MArch or Professional Architecture and one (1) was the MS degree.

In 2005-06 there were 37 graduate level degrees in Architecture; thirty six (36) degrees were the MArch or Professional Architecture and one (1) was the MS degree.

In 2006-07 there were 38 graduate level degrees in Architecture; thirty eight (38) degrees were the MArch or Professional Architecture and none (0) were the MS degree.

In 2007-08 there were 31 graduate level degrees in Architecture; twenty eight (28) degrees were the MArch or Professional Architecture and three (3) were the MS degree.

In 2008-09 there were 33 graduate level degrees in Architecture; thirty one (31) degrees were the MArch or Professional Architecture and two (2) were the MS degree.

TABLE 4
UNIVERSITY OF NEBRASKA-LINCOLN

ENROLLMENT BY COLLEGE AND FULL-TIME/PART-TIME STATUS; FALL SEMESTERS, 2004, 2008 AND 2009

Fall semester student enrollment totals are disaggregated into full-time and part-time status. Undergraduate and Law students enrolled for less than 12 credit hours are considered part-time students; when enrolled for 12 or more credit hours they are full-time students. Graduate students and MArch professional students enrolled for less than 9 credit hours are part-time and when enrolled for 9 or more credit hours are considered full-time students.

This table presents full-time and part-time enrollment figures for each college. Graduate student enrollments are grouped under the Graduate College, not under the colleges which provide graduate instruction.

Enrollment figures reflect the sixth class day enrollment census. This information is retrieved from data contained in the Student Information System. Enrollment information on this table is unduplicated and the same as that provided in reports to the Board of Regents and to the U.S. Department of Education

TABLES 6 AND 6A
UNIVERSITY OF NEBRASKA-LINCOLN

MINORITY AND NON-RESIDENT ALIEN STUDENT ENROLLMENT
BY COLLEGE AND FULL-TIME/PART-TIME STATUS
FALL SEMESTERS 2004, 2008 AND 2009

The format of Tables 6 and 6A is essentially identical to Table 4, except that counts are restricted to minority (Table 6) and non-resident alien students (Table 6A). Minority students are United States citizens who are classified as either Black Non-Hispanic; American Indian or Alaskan Native; Asian or Pacific Islander; or Hispanic. Beginning in Fall 1994 a "Non-resident Alien" was redefined in this Trends Report as a student who is in this country under conditions of a visa. Excluded from the non-resident alien category are permanent immigrants and refugees who are not required to leave the United States at a future date. Therefore, the category of "non-resident aliens" includes students who are not U.S. citizens.

These enrollment figures reflect the sixth class day enrollment census. This information is retrieved from data contained in the Student Information System. Included are students enrolled in UNL-administered courses of instruction which are offered for delivery at a location other than the UNL campus, such as Engineering and Human Resources and Family Sciences. Students enrolled in UNO-administered courses delivered on the UNL campus, such as Dentistry and Nursing, are not included.

The Office of International Affairs uses different criteria to establish its database. Therefore, its data will not match the data presented in this table.

FOR MINORITY STUDENTS AND NON-RESIDENT ALIENS
FALL SEMESTERS 2004, 2008 AND 2009

Tables 7 and 7A are similar to Table 5 except that counts are restricted to minority students (Table 7) and non-resident aliens (Table 7A). Minority students are United States citizens who are classified as either Black Non-Hispanic; American Indian or Alaskan Native; Asian or Pacific Islander; or Hispanic (“unknowns” are not included). Beginning in Fall 1994 a "Non-resident Alien" was redefined in this Trends Report as a student who is in this country under conditions of a visa. Excluded from the non-resident alien category are permanent immigrants and refugees who are not required to leave the United States at a future date. Therefore, the category of “non-resident aliens” includes students who are not U. S. citizens.

These enrollment figures reflect the sixth class day enrollment census. This information is retrieved from data contained in the Student Information System. Included are students enrolled in UNL-administered courses of instruction which are offered for delivery at a location other than the UNL campus, such as Engineering and Human Resources and Family Sciences. Students enrolled in UNO-administered courses delivered on the UNL campus, such as Dentistry and Nursing, are not included.

The Office of International Affairs uses different criteria to establish its database. Therefore, its data will not match the data presented in this table.

Note: Non-resident alien enrollment was determined differently in 1994 than in previous years. Beginning in 1994 students who were permanent immigrants and refugees and not required to leave the United States at a future date were not counted as non-resident aliens. A "non-resident alien" is a student who is in this country under conditions of a visa. Some students who were previously counted as non-resident aliens were counted as minority students in 1994.

TABLES 8A THROUGH 8M
UNIVERSITY OF NEBRASKA-LINCOLN

ACADEMIC MAJORS BY COLLEGE AND ATTENDANCE MODE; FALL SEMESTERS 2008 AND 2009

This table compares student enrollment for fall semesters 2008 and 2009 by college, major and by full- and part-time status. Full-time students are those undergraduates and Law students who are carrying at least a 12 student credit hour load and those graduate and MArch professional students carrying at least a 9 student credit hour load. The majors are self-reported by the students and correspond to majors listed in the UNL Graduate and Undergraduate Bulletins.

Tables 8A-8M reflect data contained in the Student Information System. Please note that some majors such as agribusiness may be found in the College of Agricultural Sciences and Natural Resources and Business Administration. Clarifying comments are enclosed in brackets following appropriate majors.

Enrollment information on this table is unduplicated and the same as that provided in reports to the Board of Regents and to the U.S. Department of Education. The majors counted in this table are self-reported by the students. If a student enters two or three majors, the second and third majors are not counted because an unduplicated count is required for external reporting.

TABLE 9
UNIVERSITY OF NEBRASKA-LINCOLN
STUDENT CREDIT HOURS BY COLLEGE OF STUDENT AND COLLEGE OFFERING THE COURSE
FALL SEMESTER 2009 (WITH 1- AND 5-YEAR CHANGES)

This table reports registered student credit hours as of the sixth class day of the semester. Reading across, the totals at the ends of the rows summarize student credit hours by the college of the student. Reading down, the totals at the bottom of the columns summarize student credit hours by the college which administers the course(s). These totals do not necessarily correspond to the college affiliation of the instructor teaching the course(s). The information contained in this table as well as comparable information for the other campuses in the University system is presented to the Board of Regents each year (fall and spring semesters).

The information in this table has been retrieved from data contained in the Student Information System.

1/ The College of Education and Human Sciences was created in Fall 2003 by merging Teachers College and Human Resources & Family Sciences.

2/ The "Other" category includes such areas as ROTC, Special Waiver (Overseas), Southeast Community College, etc.

TABLE 10
UNIVERSITY OF NEBRASKA-LINCOLN
ENROLLMENT BY COLLEGE OF STUDENT AND COLLEGE OF PROGRAM
FALL SEMESTER 2009 (WITH 1-YEAR CHANGE)

This table reports enrollment by college of student and college of program as of the sixth class day of the semester. Reading across, the totals at the ends of the rows summarize enrollment by the college of the student. Reading down, the totals at the bottom of the columns summarize enrollment by the college which administers the program. These totals do not necessarily correspond to the college affiliation of the student for the majors that are listed at the bottom of the table. For example, a student majoring in Agricultural Engineering, Biological Systems Engineering, or Pre-Biological Systems Engineering (Omaha) in the College of Engineering will be shown under the College of Student as 'Engineering,' but the enrollment would be shown under 'Agricultural Sciences & Natural Resources' as the college of the program.

The information in this table has been retrieved from data contained in the Student Information System.
